

Hard to Treat Diseases (HTDS) Plans a Share Buyback Program

SHENZHEN, China, March 29, 2010 Hard to Treat Diseases (HTDS; <http://www.htdsmedical.com/>) announces that the company plans to proceed with a share buyback program of its security.

As the company and its investors had been concerned with the company's share price being grossly undervalued, the company sees this as a great opportunity to shore up the float with a commencement of a share buyback program. Neither the company nor its IR will comment on this topic further. The company will announce the exact numbers as soon as this is beneficially advantageous to itself and its shareholders.

HTDS management is well positioned to complete this task with cash flows from the sale of some of its disposed assets.

In other company news, the company has retained a California law firm to assist it in resolving any issues with Pink Sheets regarding the "skull and bones" icon on HTDS security and the naked short selling which effected the HTDS in the past; which now appear to be under check.

The company reminds its shareholders and followers to monitor PinkSheets.com Filing section and also our IR company web site section "PRESS RELEASES AND FILINGS" TAB <http://www.minamargroup.net/> for non newsworthy corporate updates.

Don't be a victim. Report a stock basher. The company is mindful that short sellers, the company competitors and stock bashers stalk small cap Pink Sheets listed companies with hidden agendas. Visit <http://www.stockbasher.com/> and find out what criminal and civil actions the US authorities are taking against web sites like investorshub.com and other posters, and the remedies available to you as an individual investor.

Filings for this event are currently being reviewed and will be filed with Pink Sheets and Client Support section in due course.
